

David Fashakin

DATA ANALYST

Profile

Dedicated Junior Data Analyst leveraging Excel, SQL, and Tableau to extract, analyze, and visualize complex datasets. Proven ability to identify customer behavior patterns, optimize marketing strategies, and drive an increase in customer engagement. Skilled in developing interactive dashboards to track key performance metrics and communicate insights, resulting in improved decision-making processes. Possess a BSc (Hons) in Computer Science and an Advanced Diploma in Software Engineering, complementing technical proficiencies with a strong foundation in data analysis and communication. Excited to bring expertise in data visualization, storytelling, and project management to a Data Analyst role.
